

Gravity Summer Jam 2016 Event Results

Saturday, 17th of September 2016

The fifth edition of Gravity Summer Jam has come to an end! We had three days full of action with exceptional tricks and the best riders from Romania. DJ Trax animated the atmosphere and so did the public who cheered the riders until their last tricks. Gravity Park visitors could also admire a triangle inspired graffiti made by Visual Outcasts. During the first day of the event, our special guests, We Tour, arrived and had a warm-up session in the skatepark. The same day, took place the photography training session during which the contest rules were discussed, a Q&A session took place and also the photographers were instructed how to take photos in the extreme sports areas so as to not injure themselves and the riders. Saturday was dedicated to the qualifications for rollerblading, skate, bike, scooter and parkour; also, the photography contest took place and the climbing qualifications and finals. Sunday the finals took place and the awards ceremony. If you want to see how GSJ 2016 went down, check out the official video of the event or click [here](#) to see the GSJ 2016 photo gallery.
